Statistics not provided for AT, CY, DK and HR

**Data on CZ:** Returned voluntary includes foreigners who travelled spontaneously, that is, without help and without financial assistance. They requested assistance of Directorate of Alien Police only for the purpose of securing of land transit. Returned as part of an assisted voluntary return programme includes foreigners returned as part of an assisted return programme of IOM (in cooperation with Directorate of Alien Police Service) and of Refugee Facilities Administration (programme for asylum applicants).

**Data on FR:** Statistics include only TCN returned to TCN countries. The first column applies to returned TCN subject to a return measure, whether the return is forced or voluntary or spontaneous. The second and third columns apply to the same voluntarily returned TCN since all the voluntary returns are assisted in FR.

**Data on NL:** Numbers are rounded off to 5s. The numbers for NL in this Table are from different national sources. This explains some slight contrarities especially between the numbers in the column on assisted return programs, when compared to the numbers in the columns on Forced return and voluntary return.

**Data on NO:** The number of female and male individuals returned includes minors. Norway does not distinguish between voluntarily return and assisted return

**Data on SE:** Data include Dublin transfers, returns to the country of origin, departures to unknown destinations, and departures to other third-countries. Data for "minors" are for minors who were unaccompanied by any parents or guardians at the time of return.

**Data on UK:** 1. Dublin II individuals removed under Article 4.4 have been excluded from the statistics provided in regard to Article 7.1.b. 2. Multiple notices issued to the same person within a year are not counted. Currently it has not been possible to quality assure this information under National Statistics

<sup>3</sup> Only aggregated statistics including EU and TCNs is available. The number refers to prosecuted persons

“N/i” means no information whereby statistics are not available

“N/a” means not applicable

*Data on ES:* All third country nationals irregularly crossing the land and sea borders are considered as smuggled migrants

*Data on FR:* Statistics on the number of third-country nationals identified as smuggled persons; the number of reflection periods and the number of residence permits granted to smuggled persons is not recorded in France.

*Data on IT:* 539 smugglers arrested at 13/08/2014

*Data on NO:* Number of smugglers arrested refers to suspected smugglers. No statistics on number of arrests.

*Data on PL:* The statistics includes also PL nationals [84 PL nationals], and other EU nationals [French - 1, Spanish - 1, German - 9, Estonian - 1, British - 2, and Lithuanian - 2]. In total 100 EU nationals

*Data on SE:* The figure given under "Number of third-country nationals identified as smuggled persons" (302) refers to the number of cases in which a suspicion of smuggling has been officially reported. The actual number of smuggled persons is not known. According to the Swedish Police, a large number of asylum seekers coming to Sweden is in practice forced to make use of smugglers to order to arrive on Swedish territory. This is due to the fact that Swedish authorities do not issue visas which would make it possible for asylum seekers to travel to Sweden legally (with a passport and a valid visa).

**Data on CY:** Please note that data presented for Cyprus is aggregated data which includes EU nationals and TCNs.

**Data on HU:** In Hungary the number of persons who were initially 'presumed' as victims and the number of those who then became 'identified' victim are the same. Consequently, all 'presumed' victims became 'identified' victims' at a later stage.

**Data on IE:** Of the 46 alleged victims encountered in 2014, 18 were from outside the EU. The other 28 were from a number of EU Member States including Ireland. No specific country information is available. Statistics on trafficking in Ireland should be viewed as provisional and may be different to those published in subsequent annual reports.
