² Georgian law differentiates between the status of "victim of trafficking" and "status of statutory victim of trafficking". The status of victim of trafficking is granted to the person by a Permanent Group of the Inter-Agency Council on Combatting Trafficking in Persons within 48 hours based on the questionnaire of mobile group of the Agency for State Care and Assistance of (Statutory) Victim of Human Trafficking (hereinafter – Agency for State Care), while the status of statutory victim of trafficking is granted by law enforcement authorities in accordance with the Criminal Procedure Code of Georgia. The victim/statutory victim enjoys the same services (free legal aid, psychological and medical assistance, rehabilitation and reintegration measures, one-off compensation, shelter and crisis centre) of the Agency for State Care after a person is granted the status of victim/statutory victim. The existence of two statuses ensures all persons affected by human trafficking are not to be left outside the state-run services, regardless of their will to cooperate with law enforcements.
